13 June 1963

MEMORANDUM FOR: Colonel White

We have had a quiet two days, but there are a few points about which you might wish to be informed:

(a) The problem of Senator Church's letter has only been mentioned briefly at the morning meeting and the Director seems satisfied that it is a closed incident.

[redacted] Chief Telephone Operator, reported that none of the girls remember any inquiry concerning where a riding page might leave a letter for the Director. She pointed out that had Mr. McCone's name been mentioned, the call would have automatically been referred to his office. [redacted] has interviewed the riding page and his report is attached together with a copy of [redacted] final report on the matter. I have not sent any of this to the front office.

(b) Nothing has come up regarding the auxiliary building. Jim Garrison is still going after the new building at [redacted] but he now finds the owner wants to retain the parking facilities on the first five floors and rent them himself. The top seven floors will contain about 200,000 sq. ft. of office space.

(c) Sally has a note for you that Jim Garrison's office called this morning to report that title to the two large tracts is now ours. I passed this on to [redacted] in case someone asked about it, but you might want to mention it at tomorrow's Executive Committee meeting.

(d) As you will see from [redacted] Memorandum for the Record on the morning meeting yesterday, there is to be a general budget review with our appropriations subcommittee on Monday at 9 a.m. John Bross is preparing a "talking paper" for the Director and is now scheduled to go over this with him at 2:30 tomorrow (Friday). I gather this hearing is going to be very general and is being held principally to enable the subcommittee

25X1A to say they have looked at the CIA Budget [redacted] 25X1A
[redacted] We are not expected to attend either the Friday rehearsal or the hearing itself, but Johnny said he would send us a copy of the talking paper and would appreciate any comment you might have. Either Bross or [redacted] can give you 25X1A9a
the background on this.
